TECHNINAL OVERVIEW

- Next.JS 15
- React
- Tailwind CSS
- Javascript
- Typescript
- Firebase
- React Native
- ShadCN UI
- HTML 5
- CSS 3
- Vercel
- AWS
- Node.JS

LIVE PROJECTS

Megha Sales Corporation   **Explore Project**

An enterprise-level PWA built for an autoparts wholesaler managing 9–10 leading brands. The platform streamlines product cataloging and online ordering, replacing the traditional manual process with a fully digital, real-time solution.

- ↓ Responsive Installable PWA
- Google One Tap Sign-In
- WhatsApp Notifications
- Role-based User Interfaces
- Product search and filters
- Persistent User Login

Tech Stack: Next.JS 15   React   Tailwind CSS   ShadCN UI   Firebase

Real State Web App   **Explore Project**

A learning project built to explore Next.js with Firebase, where the app catalogs homes for sale with prices, addresses, and amenities. Users can browse and filter properties, while admins manage listings via a separate role-based interface.

- User Favourites
- Google Authentication
- Google Maps Integration

Tech Stack: Next.JS 15   React   Tailwind CSS   ShadCN UI   Firebase

WORK EXPERIENCE

Zapcom Solutions Pvt. Ltd.   June 2023 - Present · **2+ years**

Senior Frontend Developer

Developed and maintained scalable web applications, collaborated with cross-functional teams, and optimized UI performance.

Wokred on two projects - **KePSLA Helpcenter Portal** │ **Customer Loyalty Saas Platform**

KePSLA Helpcenter Portal

Key Responsibilities:
- Led design phase and collaborated with stakeholders to define requirements.
- Managed frontend development using React JS with Vite.
- Coordinated frontend and backend integration.

Key Achievements:
- Successfully led the project, enhancing cross-team communication.

Customer Loyalty Saas Platform

Key Responsibilities:
- Built interactive React Native apps aligned with UX standards.
- Integrated RESTful APIs for seamless functionality.
- Deployed mobile apps to App Store and Play Store.
- Created serverless APIs with AWS Lambda for business use-cases.

Key Achievements:
- Learned AWS serverless architecture (Lambda, DynamoDB, Cognito).
- Managed end-to-end mobile app lifecycle independently.

Panorbit Services LLP
Software Developer
July 2022 - April 2023 · 9 months

Began transitioning from Angular to React and React Native, gaining hands-on experience developing mobile apps for the first time. During this period, contributed to ODO World, building interactive multilingual word-game features that delivered a smooth user experience. Also improved stability and fixed critical bugs in the Changeway React Native app, enhancing overall performance and reliability. Applied modern React Native best practices to deliver efficient, scalable mobile solutions.

Infosys Pvt. Ltd.
Systems Engineer
March 2021 - June 2022 · 1 year 3 months

Completed a 4-6 month Full Stack Web Development training at Infosys, focusing on AngularJS and Java Spring Boot. Post-training, contributed to internal projects by fixing bugs, building new components, and developing proof of concepts (POCs) for the Experience ICETS portal. This hands-on work enhanced my full stack skills and prepared me for live project challenges.

EDUCATION

Bachelor of Engineering in Computer Science
Aug 2016 - Aug 2020

B.E. (CSE) - Vishveshwarya Technological University (VTU)
- From Acharya Institute of Technology
- CGPA - 7.1

ADDITIONAL INFORMATION

- **Tools & Platforms:** AWS, Firebase, Vercel, GitHub, Postman, VS Code, PgAdmin 4, Android Studio, Xcode
- **Awards/Achievements:**
  - GATE-2021 qualified | AIR 1958 (604 score)
  - Zapcom Hackathon Winner
